

## Tool 3: Unit Selection Table

---

This tool is used by a group of reviews to select matching or similar units to review from multiple instructional materials programs.

Unit Target	What commonality makes the units comparable?  (i.e., they address similar DCI-related topics (clarify which ones); they are designed to have students make sense of a similar phenomenon (clarify what makes the phenomenon similar); the unit is the best example of engineering integration in the program, etc.)		
Unit Description	Instructional Materials Program Name	Unit (title and page numbers)	Why this unit?
