

Tool 7: Final Evaluation

This tool is used at the end of the PEEC process to make a final recommendation about an instructional materials program.

Directions

Reflect on the summary table and the other evidence collected to make a final claim about whether the instructional materials program is designed to provide adequate and appropriate opportunities for students to meet the performance expectations of the NGSS. Once this claim is established, explain how the data in *Tool 6: Program Level Evaluation Evidence Summary* support this conclusion and highlight the most compelling evidence from each of the phases of PEEC to support the claim. After establishing the evidence for the claim, summarize any recommendations for what would need to happen during implementation of the materials to address any weaknesses that were identified in the analysis.

Claim

Title of instructional materials under review: _____ (does/does not) provide adequate and appropriate opportunities for students to meet the performance expectations of the NGSS.

Evidence-Based Response
